THE BEAUTY & VALUE OF SAPPHIRE GRADE CHART

Same Gem ♦ Different Grades ♦ Different Qualities

GRADE AAA

Color	: Vivid, deep royal blue (Highly saturated and even)
Cut	: Excellent to Very Good (Maximizes brilliance)
Luster	: High polish with strong light reflection
Usage	: Luxury jewelry, investment-grade pieces
Transparency	: Transparent with exceptional clarity

GRADE AA

Color	: Medium to deep blue (Less vivid than AAA)
Cut	: Good to Very Good (Decent brilliance and symmetry)
Luster	: Good shine, but not as reflective as higher grades
Usage	: Mid-range fine jewelry
Transparency	: Transparent to slightly included

GRADE A

Color	: Medium to pale blue (Less saturation and uneven tone)
Cut	: Fair to Good (Basic faceting, less brilliance)
Luster	: Moderate, may appear slightly dull
Usage	: Budget jewelry, fashion pieces
Transparency	: Slightly to moderately included

GRADE B

Color	: Faint, uneven, or overly dark/washed-out blue
Cut	: Poor to Fair (Asymmetrical, low brilliance)
Luster	: Dull to weak shine
Usage	: Low-cost jewelry, practice stones
Transparency	: Translucent to opaque
